DETAILED ACTION

Drawings

The amendments to Figures 2a, 2b, 20 and 21 have been accepted.

Specification

The amendment to the paragraph starting on page 33, line 11, of the Specification, has been accepted.

Claim Objections

The cancellation of claims 2-3 and 14-17 has been accepted.

The amendments to claims 1, 5, 7, 10, and 11 have been accepted.

The amendment to claim 1 has made the previous 35 USC 112 rejection moot; therefore, the 35 USC 112 rejection has been withdrawn.

New claims 18 and 19 are accepted.

Allowable Subject Matter

1. Claims 1, 4-13, 18 and 19 are allowed.
2. The following is an examiner's statement of reasons for allowance:
3. The prior art relied upon in the previous office action rejection by Iwanaga (JP 51143915 A), Ito (JP 09279717 A), Furuta et al. (JP 10121599 A), Shiyuuri (JP 2000/027333 A), Oshio (JP 2002/2206211 A), Farmer (1,495,993), Beckett (2,310,274), Smith (2,900,127), Braund (2,915,134), and Rechsteiner et al. (5,509,242) no longer teach all the claimed elements of the independent claim 1, or its dependent claims, and new independent claims 18 and 19, and no other prior art references could be found that teach said claimed elements, therefore the independent claims and their dependent claims are considered allowable.
4. In the previous Office Action, claims 3-5, 7 and 11-13 were objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claim.
5. The Applicant has cancelled claim 3 and amended independent claim 1 to incorporate the allowable subject matter.
6. It was previously stated that the prior art fails to teach, or fairly suggest, the attaching position of the vibration deadening washer being provided in an area of the duct wall whose temperature is 400 degrees Celsius or less. Therefore, amended independent claim 1 and its dependent claims 4-13 are deemed allowable.

7. In terms of new independent claim 18, the Applicant has incorporated the features of claim 7.

8. It was previously stated that the prior art fails to teach, or fairly suggest, a plurality of holes, through which the second supporting member is secured at the intermediate member, composed with a hole for fixing the vibration deadening washer, disposed at the middle part of the intermediate member, and one or more sets of loose holes disposed at the symmetrical positions of the intermediate member, centering around a corresponding fixing hole. Therefore, new independent claim 18 is deemed allowable.

9. In terms of new independent claim 19, the Applicant has incorporated the features of claim 11.

10. It was previously stated that the prior art fails to teach, or fairly suggest, those elements discussed above in relation to features of claim 7, now incorporated into claim 18, but disposed on the laminated inner plate members of claim 10, and not the intermediate member. Therefore, new independent claim 19 is deemed allowable.

11. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
